HEATING Harvia wood-burning	WEIGHT 2,200 kg	DELIVERY Fully assembled

OVERVIEW

Made for evenings that turn into gatherings

The Barrel is the most generous of the barrel saunas, made for evenings that turn into gatherings. A side door opens into a sitting room with a table and storage benches, lit by a double opening window. Through a tinted glass door, the sauna room waits with deciduous wood benches and a round window onto the garden.

A Harvia Pro 20 wood-burning stove warms the room the traditional way, while soft LED lighting traces the roofline after dark. It arrives fully assembled, with room for eight to ten. Light the fire, and let the evening unfold.

Site and running

BASE	Level, waterproofed concrete base built to the manufacturer’s drawings. Required for the warranty.
ACCESS	It arrives fully built, at 5.9 m long and around 2,200 kg, so access is the first thing we check. We review the route and lifting with you first.
POWER	Power needed for the LED lighting only, hard-wired by a qualified electrician. Supply confirmed at the site review.
RUNNING COST	Estimated £35–65 a month, based on our average customers’ monthly use. We explain the assumptions, including how often you use it, the heating method and the time of year.

JAMES’S TAKE

If you want the classic sauna evening with friends, this is it. You’ve got a proper wood-burning stove, a sitting room with a table, and space for everyone. It arrives fully built, so access is the first thing I’ll check with you.
