

CABIN SAUNA · ELECTRIC · 4–6 PEOPLE

The Cabin

A compact, contemporary single-room sauna with insulated walls and roof, a back window, and a 9kW Harvia electric heater.

SEATS 4–6 people	SIZE 2.35 × 2.24 m	HEIGHT 2.37 m
HEATING Harvia 9kW electric	WEIGHT 900 kg	WALLS AND ROOF Insulated

OVERVIEW

A proper sauna, sized for your space

The Cabin is a proper sauna, sized for the space you have. Clean, square lines and spruce cladding give it a calm, contemporary presence on a terrace or in a quiet corner of the garden.

Inside, a single room is given over entirely to the heat, with deciduous wood benches and a window in the back wall. A 9kW Harvia Cilindro heater brings the warmth with a touch of its Xenio control, and insulated walls and roof help hold it there.

YOUR COLOUR CHOICE	Stain or paint, spray-applied in the factory

PLANNING YOUR SPACE

Site and running

BASE	Level, waterproofed concrete base built to the manufacturer’s drawings. Required for the warranty.
ACCESS	Delivered fully assembled or as a compact flat-pack kit, so we can usually find a way in. We review access, route and lifting with you first.
POWER	A dedicated hard-wired circuit for the 9kW heater and lighting, installed by a qualified electrician.
RUNNING COST	Estimated £25–45 a month, based on our average customers’ monthly use. We explain the assumptions, including how often you use it, the heating method and the time of year.

JAMES’S TAKE

If space is tight, this is the one to look at. It’s the same contemporary Luna design as the Panorama, just without the changing room, so it fits where the bigger saunas can’t. Switch it on, let it warm up, and you’ve got a proper sauna in a fraction of the space.

James Outdoor Wellness Specialist

Figures are from the manufacturer’s specification and may change. Nothing is final: James confirms the product, access, base, warranty terms and specification with you in writing before any money changes hands.
