

WOOD-FIRED HOT TUB · 3-5 PEOPLE

The Compact

A traditional all-timber hot tub with its own wood-fired heater, sized for a terrace or a quieter corner of the garden.

SEATS 3-5 people	DIAMETER Ø1.54 m	HEIGHT 1,045 mm
WEIGHT 235 kg	HEATING Wood-fired	FILTRATION Sand filter

OVERVIEW

The hot tub in its most traditional form

The Compact is the hot tub in its most traditional form. It's built entirely from timber and warmed by a wood-fired heater that sits within the water itself.

At just over a metre and a half across, it suits a terrace or a quieter corner of the garden, where a larger tub would feel like too much. Light the fire, let the water come slowly to warmth, and settle in.

THE TUB	Ø1.54m round timber tub with built-in benches and an octagonal rim
WOOD-FIRED HEATING	Internal wood-fired heater, with chimney
SAND FILTRATION	Keeps the water clear between changes
CURVED STAIRS	Two or three steps, your choice
YOUR COLOUR CHOICE	Stain or paint, spray-applied in the factory

PLANNING YOUR SPACE

Site and running

BASE	A firm, level base such as gravel, chippings or paving slabs. No concrete needed; air must circulate underneath.
ACCESS	It arrives fully assembled at around 1.54 m across and 235 kg, so we check the route in with you first.
POWER	A supply for the sand filter pump, confirmed at the site review.
RUNNING COST	Estimated £25–55 a month, based on our average customers' monthly use. We explain the assumptions, including how often you use it, how much wood you burn and the time of year.

JAMES'S TAKE

If you've got a smaller garden, or you know it'll mostly be the two of you, this is the one I'd look at first. It's the classic wood-fired tub, just sized sensibly. Less water to heat, less space taken, and nothing you don't need.

James Outdoor Wellness Specialist

Figures are from the manufacturer's specification and may change. Nothing is final: James confirms the product, access, base, warranty terms and specification with you in writing before any money changes hands.
