OVERVIEW

The full sauna ritual, in your garden

The Lodge brings the full sauna ritual into the garden, with two rooms under one gently sloping roof. Step into a sitting room lined with spruce storage benches, then through to the sauna room, where alder benches face a wide window onto the view beyond.

An 11kW Harvia Legend heater brings the warmth with a touch of its Xenio control, while soft LED lighting carries the evening on long after dark. Room for six to eight, and a place to properly switch off.

Site and running

BASE	Level, waterproofed concrete base built to the manufacturer's drawings. Required for the warranty.
ACCESS	Delivered fully assembled or as a flat-pack kit, so we can usually find a way in. We review access, route and lifting with you first.
POWER	A dedicated hard-wired circuit for the 11kW heater and lighting, installed by a qualified electrician.
RUNNING COST	Estimated £35–70 a month, based on our average customers' monthly use. We explain the assumptions, including how often you use it, the heating method and the time of year.

JAMES'S TAKE

This is the one I'd point you to if you want a proper sauna experience rather than just a hot box. The sitting room makes all the difference: somewhere to change, cool off and sit between rounds. With the electric heater, it's as easy as switching it on after work.
