

WOOD-FIRED HOT TUB WITH JETS · 5–8 PEOPLE

The Retreat

A timber-clad fibreglass hot tub with an integrated wood-fired heater and fourteen massage jets, delivered fully assembled.

SEATS 5–8 people	DIAMETER Ø1.8 m	HEIGHT 1.07 m
HEATING Wood-fired, integrated	JETS 14 (6 air, 8 hydro)	WATER 1,800 litres

OVERVIEW

The fullest expression of the range

The Retreat is the fullest expression of our fibreglass range. A smooth, single-piece shell sits within warm spruce cladding, its wood-fired heater built quietly into the tub itself.

Beneath the surface, fourteen jets work in two ways: gentle air bubbles that keep the water softly moving, and deeper hydromassage streams that many find ease the day from their shoulders and back. Room for up to eight, and a place to properly switch off.

TIMBER AND FINISH	One-piece fibreglass shell, 18mm spruce cladding, factory stained or painted in your chosen colour
DELIVERY	Fully assembled
ASSEMBLY	None — arrives ready to use

AS STANDARD

What’s included

THE TUB	Ø1.8m one-piece fibreglass shell with moulded benches, clad in 18mm spruce
WOOD-FIRED HEATING	Integrated 304-grade stainless steel burner, with chimney
JETS	Six air jets to keep the water gently moving, and eight wall jets for a deeper, more focused massage
CHIMNEY GUARD	Perforated stainless safety fence around the chimney
SAND FILTRATION	Keeps the water clear between changes
DRAIN VALVE	For easy emptying
CURVED STAIRS	Two or three steps, your choice
YOUR COLOUR CHOICE	Stain or paint, spray-applied in the factory

PLANNING YOUR SPACE

Site and running

BASE	A firm, level base such as gravel, chippings or paving slabs. No concrete needed; air must circulate underneath.
ACCESS	It arrives fully assembled at 1.8 m across and around 210 kg empty, so we check the route in and lifting with you first.
POWER	An outdoor supply for the 700W jet pump and 1,500W hydromassage pump, fitted by a qualified electrician.
RUNNING COST	Estimated £45–75 a month, based on our average customers’ monthly use. We explain the assumptions, including how often you use it, how much wood you burn, how often you run the jets and the time of year.

JAMES’S TAKE

If you’re going to use your hot tub most evenings, this is the one I’d point you to. You get everything that makes the fibreglass range easy to live with, plus jets that genuinely change how it feels to sit in. It’s the one people tend to wish they’d chosen, so it’s worth considering from the start.

James Outdoor Wellness Specialist

Figures are from the manufacturer’s specification and may change. Nothing is final: James confirms the product, access, base, warranty terms and specification with you in writing before any money changes hands.
